

MSc SIMULATION – BASED EDUCATION (SBE)

The MSc in Simulation-Based Education (SBE) by distance learning is structured for those in the workplace with a part-time approach with two modules per year for the first two years with a MSc research dissertation or project-based change in year three.

The MSc in Simulation-Based Education (SBE) will offer a post-graduate qualification that is innovative and contemporary offering a programme for professionals who are currently utilising or considering the pedagogy of simulation for teaching, learning, assessment, modelling of concepts or devising new ways and changing systems of working.

Professions that utilise simulation include practitioners and academics/ educators from health and social care, emergency services, aviation, defence, security, business, and law. The programme may aid teachers particularly those from STEM subjects at primary and secondary level. Lecturers

offering Apprenticeships for 16 – 19-year-olds particularly those in health, social and business care are increasingly adopting simulation as a tool for skill rehearsal prior to work – based placements.

The unique aspect is this MSc is focussed on all types of simulation -based education and is open to anyone in the world who meets the entry criteria irrespective of role or background.

Modules Years 1 - 2

- Contemporary Issues in Simulation
- Simulation for teaching, learning and assessment in your sphere of practice
- Simulation for change and innovation
- Research in Simulation

Modules Year 3

- Master's Dissertation
- Master's Project
- Cost £8,865
- Students will be able to step off at PgCert and PgDip
